Plan your project anytime, from anywhere. Our virtual design experience means everyone has access to their own personal kitchen designer from the comfort of their home or when they're on-the-go.

Design your kitchen with an expert by your side. Getting started is as simple as sending in rough measurements and a sketch of your space. Receive your personalized quote and design within 24 hours.

Finalize the details before placing your order. This means confirming measurements, selecting your countertop and applying for any financing.

Delivery dates will be estimated at checkout and confirmed by our Customer Service team so you know what to expect every step of the way.

Install your new cabinets or hire one of our experienced installers to do the heavy lifting for you. If you select CliqStudios countertops, a local fabricator will measure and fabricate them after cabinet installation.

Reveal your new space and celebrate! Send your before and after photos to your designer and share your story on social with the hashtag, #CliqStudios.
